

## Craft Class Project Make – Mini Gift Bag from 6”x6” DSP

### Instructions:

1. Fold your 6”x6” piece of DSP in half
2. On one side - Score at 1cm, then cut at 2cm – do this twice.
3. Fold in Half on the longest side
4. Whilst folded, Score at the folded side at 1cm, flip over and do same on other side.
5. Open out and score at 1cm from each end, still on the longest side.
6. On the shortest side, mark a score line in between the three middle lines at 1cm and cut flaps up to that score line – burnish these flaps.
7. Apply double-sided or red tape to one side of bag only and adhere together.
8. Secure sides of bag from inside by using wet glue to adhere the flaps to inside of bag (manipulate slightly to ensure you get a good even finish on the bottom and that it stands on its own).
9. Add a sentiment by layering up a section for front of bag, add embellishments and also add a handbag charm (tag) to finish off your creation
